Bank accredited valuer

## Roles Sought

Director

Chairperson

Advisory Board Member

## Functional Skills

Compliance & Risk      Finance

Marketing                      Sales

Environment                  International

## Governance Experience

Over 12 years of governance experience has included being a Trustee of a private farming business, Managing Director of the New Zealand subsidiary of a German publicly listed company and an Advisory Board member for a commercial professional services business and private farming enterprises.

Over this time as a Director and Trustee I have initiated strategic plan development and ensured operational plans presented were aligned to the strategy plus implementation of regular reporting to Board / Trustees for monitoring progress.

Having involvement in many aspects of the agribusiness sector has developed specific expertise in financial reporting and analysis plus finance and funding, sales and marketing to the agribusiness sector in New Zealand and internationally, primary production, business acquisition, as well as manufacturing.

## Candidate Statement

I have a keen interest and belief in the value that governance contributes to the sustainable success of privately owned New Zealand businesses.

My governance approach brings a focus on developing clarity of purpose, ensuring business plans align to this purpose and tends to look for managed risks.

I have a deep and diverse network across the agribusiness professional advisors and banking sectors in New Zealand.
